## **MILL 175**

maximum noise reduction

## \_\_\_\_ TECHNICAL FEATURES

VARIABLE ANGLE END MILLING MACHINE
End-milling angle
Milling unit rotation speed
Milling unit quick change device
Max milling tool diameter housed
No. milling tools housed
8-position height adjustable profile stop
Horizontal and vertical vices
Patented system that guarantees an identical milling and cut-
ting angle, without the use of goniometer
Adjustable mill carriage limit switch to minimise machining
times
Automatic milling unit feed with quick approach managed by
photocell
Manual milling unit feed
Minimum lubrication with pure oil
Integral tunnel surrounding the profile being machined, for
